

Welcome to Worcester!

Our city has united to help our fellow Americans from Puerto Rico and incoming victims of Hurricane Maria here in Worcester.

If you are here in Worcester because you evacuated from your home after Hurricane Irma or Maria, please call 211 and ask for support.

Whether you plan on being here for two months or two years, calling 211 is the first step in becoming settled here in Worcester and Worcester County. This statewide program will direct you to Centro that will help you find your footing here in Massachusetts and get registered with FEMA. We will also connect you with additional services.

Even if you have family staying with you or are staying with family yourself, please call 211 and let us know that you are here.

If you know people that are planning on coming to Worcester, please call Centros Las Americas and inform them of the expected date of arrival and the number of people that can be expected.

11 Sycamore Street, Worcester MA 01608
